## **Oriented Strand Board (OSB 3) or Waferboard**

OSB Waterboard has many applications for the building trade and also for domestic use and offers many advantages over plywood, some are listed below: -

**No core voids - No delaminating - No knots - Cheaper than Plywood**

**Some typical uses are: -**

Flooring - Roofing (Sarking under tiles or slates) - Dormer Window Sheathing  
Flat Roofing (Decking) - Timber Frame Sheathing - Site Hoardings and Gates  
Garden Sheds - Animal Enclosures - Boarding up Windows  
Packing Crates - Shuttering or Formwork.

**The sheet sizes stocked are: -**
